

Cabinet Exhaust Fans

30" Belt drive exhaust fan in cabinet

Specifications

Blade Size: 30 in.

Motor: 0.5 HP

RPM: 1610

Voltage: 115/230V

Weight: 79.36 lbs.

Dimensions: 31.5 in. x 18 in. x 31.5 in.

CFM: 7000

- Heavy-duty construction
- Powerful motor options
- Energy-efficient
- Easy to install
- Low-maintenance design
- Quiet belt driven design

Cabinet Exhaust Fans

Our Cabinet Exhaust Fans are built to deliver strong performance for demanding industrial environments. These fans are available in five sizes, providing the perfect solution for various needs. They ensure proper airflow and efficient cooling, creating a safer and more comfortable workspace.

Motor Power and Performance

These fans are designed to offer reliable ventilation. You can choose from different motor options based on your needs: 0.75 HP, 1.0 HP, 1.5 HP, and 2.0 HP. They operate at speeds ranging from 1660 RPM to 1725 RPM, depending on the fan size. They are compatible with both 115V and 230V systems, offering flexibility for different setups.

Durability and Weight

Built to last, these fans are made from durable materials. They are designed for long-term use in tough conditions. The fan weight ranges from 79 lbs. to 189 lbs., depending on the size. The dimensions also vary by model.
