Bessey D15S Sheet Metal Mini Straight Cutting Snips

Compact snips for controlled straight cuts in sheet metal

OVERVIEW

The BESSEY D15S mini straight cutting snips are a compact, manual sheet metal cutting tool. Their short, forged cutting head allows accurate straight cuts in confined areas, while the compound-leverage mechanism and ergonomic handles support comfortable, controlled operation.

KEY FEATURES

- Straight-cutting design for sheet metal work
- Compact cutter head for controlled snipping
- Compound leverage helps reduce hand effort
- ERGO handles designed for comfort
- Practical one-hand locking mechanism
- Suitable for roofing, flashing and workshop use
