Wuko 6350 Uber Bender

Manual sheet metal bending and forming tool

OVERVIEW

The WUKO 6350 Uber Bender has an angled bending disc for bends up to 100°. The extended bending height accommodates taller profiles. It is suited for delicate sheet metal, spring-back materials and longitudinal beadings.

KEY FEATURES

- Angled disc bends up to 100°
- Helps avoid underlying scratches
- Requires less space for profiles
- Extended 5–350 mm bending height
- For delicate and spring-back materials
- Useful along longitudinal beadings

TECHNICAL SPECIFICATIONS

MODEL	WUKO 6350
BENDING ANGLE	0°–100°
BENDING HEIGHT	5–350 mm
HEIGHT (IN)	3/16–14 in
MAX. THICKNESS	0.8 mm (22 ga)
MEASUREMENT SCALE	cm or inch
DISC	Angled bending disc
