Bessey D208-275L Punch Snips with Curved Blades

Left-cutting curved blade snips for circular and shaped cuts

OVERVIEW

The BESSEY D208-275L punch snips feature semi-circular cutting edges for controlled circular and curved cuts in sheet metal. The traditional forged construction and painted handles provide strength and reliable handling for roofing, plumbing and fabrication work.

KEY FEATURES

- Left-cutting version for circular and curved cuts
- Semi-circular blade profile for shaped cutting
- 40 mm cutting edges for controlled trimming
- Forged steel cutter and handle construction
- Painted blue handles for practical grip
- Suitable for metal roofing, plumbing and fabrication
