TYMA 1015551 Sheet Metal Large Nibbler

Manual sheet metal nibbler for clean, controlled detail cutting

OVERVIEW

The TYMA 1015551 Large Nibbler cuts sheet metal by removing a narrow strip as the handles are squeezed. Its double-blade cutting head produces clean edges with minimal distortion, making it useful for curved cuts, detailed profiles and precision trimming in metal roofing, gutter work and fabrication.

KEY FEATURES

- Cuts sheet metal up to 22 gauge
- Double-blade head removes a thin strip of metal
- Minimizes bending and curling at cut edges
- Suitable for curved and detailed cuts
- Spring-assisted handles for controlled operation
- For roofing, gutters, HVAC and sheet metal work

TECHNICAL SPECIFICATIONS
