WUKO 1004837 Standing Seam Opener

Manual tool for opening closed standing seams and hems

OVERVIEW

The WUKO 1004837 Standing Seam Opener is a manual hand tool designed to open closed standing seams and folded hems. It assists with roof seam rework, repairs and adjustments, and can also help start sharp bends during sheet metal fabrication.

KEY FEATURES

- Opens closed hems and standing seams
- Useful for seam rework and repairs
- Can help start sharp sheet metal bends
- 1.375 in throat width
- 10 in overall tool length
- Manual design with gray-grip handles
