WUKO 1009869 Round Seaming Pliers 45° Bent

Manual sheet metal bending and forming pliers

OVERVIEW

The WUKO 1009869 Round Seaming Pliers 45° Bent are designed for precision forming and seaming of curved sheet metal edges. Their angled jaw design improves access in tight or pitched work areas, while the rounded jaw profile helps create smooth bends and transitions with reduced marking on the material surface.

KEY FEATURES

- 45-degree bent jaw design for improved access
- Round seaming jaws for curved edges and smooth transitions
- Helps minimize marking during bending and shaping
- Ideal for roof pitch transitions and flashing details
- Manual hand tool for precision sheet metal forming
- Suitable for roofing, flashing and fabrication work

TECHNICAL SPECIFICATIONS

MODEL	WUKO 1009869
TOOL TYPE	Round seaming pliers
JAW ANGLE	45° bent
JAW STYLE	Round seaming jaws
MATERIAL	High-grade hardened tool steel
OPERATION	Manual hand tool
APPLICATION	Curved seams, rounded edges and detail work
