

WUKO 2204 Uni Bender

Manual sheet metal bending and forming tool

OVERVIEW

The WUKO 2204 Uni Bender is designed for bending and forming sheet metal, including straight and curved sheets. Four roller stops improve handling and guidance, especially when working on outside radii.

KEY FEATURES

- Bends sheet metal from 0° to 90°
- For straight and curved sheets
- Four roller stops for easier guidance
- Improved control on outside radii
- Screw-on handle for maximum bending height
- Centimeter or inch scale

TECHNICAL SPECIFICATIONS
