Wuko 2354 Uni Bender

Manual sheet metal bending and forming tool

OVERVIEW

The WUKO 2354 Uni Bender forms straight and curved sheet metal. Four roller stops improve handling and guidance, especially on outside radii. Its extended bending height supports larger fabrication work.

KEY FEATURES

- Bends sheet metal from 0° to 90°
- For straight and curved sheets
- Four roller stops for guidance
- Improved control on outside radii
- Screw-on handle for maximum bending height
- Centimeter or inch scale

TECHNICAL SPECIFICATIONS

MODEL	WUKO 2354
BENDING ANGLE	0°–90°
BENDING HEIGHT	5–350 mm
HEIGHT (IN)	3/16–14 in
MEASUREMENT SCALE	cm or inch
GUIDANCE	Four roller stops
HANDLE	Screw-on
