

Wuko 6050 Mini Uber Bender

Manual sheet metal bending and forming tool

OVERVIEW

OVERVIEW

The WUKO 6050 Mini Uber Bender is a compact, handy tool designed for bending on small radii. Its angled bending wheel, two roller stops, and two support rollers provide control for detailed sheet metal work.

KEY FEATURES

- Bends from 0° to 100°
- Designed for small radii
- Angled bending wheel
- Two roller stops
- Two support rollers
- Compact handheld design
- Centimeter or inch scale
