

Wuko 6200 Uber Bender

Manual sheet metal bending and forming tool

OVERVIEW

The WUKO 6200 Uber Bender uses an angled bending disc to form bends up to 100°. It helps avoid scratches on the underlying surface and requires less space when forming profiles. Suited for delicate and spring-back materials.

KEY FEATURES

- Angled bending disc
- Bends from 0° to 100°
- Helps avoid surface scratching
- Requires less space for profiles
- Suited for delicate materials
- Useful on spring-back materials
- Centimeter or inch scale
